Session 2 - Purpose-Driven Innovation: Embedding Purpose into Organizational DNA	
Session Host: Mr. Anil Sachdev, Founder & Chairman, SOIL Institute of Management	
11:25 – 12:20 Hrs.	<p>Session Brief: This panel will explore how purpose-driven innovation transforms organizations, making them more resilient, sustainable, and engaging for employees. Esteemed leaders will share insights on integrating purpose into organizational DNA, emphasizing workplace wellbeing, sustainability, and deep employee engagement, showcasing best practices and success stories leading to tangible outcomes.</p> <p>Session Format: Panel Discussion</p>
Session 3 - The Future of Work: How DEI Will Shape Tomorrow’s Workplace	
12:25 – 13:20 Hrs.	<p>Session Brief: As the workplace continues to evolve, diversity, equity, and inclusion (DEI) are becoming increasingly critical in shaping the future of work. This panel discussion will explore the transformative impact of DEI initiatives on tomorrow’s workplace, highlighting how organizations can create inclusive environments that drive innovation, engagement, and success. Our panel of industry leaders and experts will share their perspectives on the importance of DEI, strategies for effective implementation, and the long-term benefits for both employees and organizations. This dynamic conversation will highlight upon the future landscape of work shaped by DEI principles with the help of real-world examples.</p>

	Session Format: Panel Discussion
13:20 – 14:15 Hrs.	Lunch Break
Session 4 - Transforming Future of Work with New Age Tech	
14:20 – 15:15 Hrs.	<p>Session Brief: This session will delve into a crucial topic that preoccupies the minds of many leaders as they strive to make decisions that enable their organizations to thrive today while preparing for the future. It will explore the transformative potential of cutting-edge technologies such as Generative AI (GenAI), HR process automation, HR Analytics, and the Metaverse to drive organizational excellence.</p> <p>Panelists will emphasize methods to enhance organizational efficiency through task automation, the personalization of employee experiences by leveraging technology and data and adapting to new ways of working influenced by technological advancements. Participants will gain valuable insights into optimizing talent management and improving decision-making processes within their organizations. The discussion will also highlight the latest advancements and practical applications of these technologies, demonstrating their impact on productivity, employee engagement, and overall business outcomes.</p> <p>Session Format: Panel Discussion</p>
Session 5 - Future Proofing the Workforce	
15:20 – 16:15 Hrs.	<p>Session Brief: This session will explore strategic workforce planning to predict skillset demands amidst evolving market conditions and evaluate the availability of these skills within the organization. Key points of discussion will include developing hybrid skillsets that combine technical expertise with soft skills for versatile employees and identifying candidates for targeted upskilling and reskilling programs. Panelists will emphasize implementing tailored reskilling programs that address specific industry needs and individual career aspirations.</p> <p>The session will also cover the importance of cultivating emotional intelligence to manage and inspire diverse teams, recognizing the unique values and work styles of Baby Boomers, Gen X, Millennials, and Gen Z. Additionally, we will discuss leveraging emerging technologies for strategic business integration, promoting adaptable leadership with a growth mindset, and championing cultural competency and inclusivity in global team leadership. Finally, the commitment to ethical, sustainable, and responsible leadership will be highlighted as a cornerstone of future workforce strategies.</p> <p>Session Format: Panel Discussion</p>
